Walther 88g CO2 cylinders

The Umarex 850 AirMagnum air rifle performs at its best when using Walther 88g CO2 cylinders - premium, clean CO2 ensures your valves don't get dirty! You'll get approximately 200 shots per cylinder. These cylinders are disposable.

The Colt 1911 still defines the standard for modern day semi-automatic pistols. The 1911 was the standard US military sidearm from 1911 to 1985 and is still frequently used by civilians, law enforcement, and military forces today. This series of Colt .22 LR Rimfire 1911s has the same look and feel as their .45 “big brothers” but allows you to spend a day at the range for a fraction of the cost.

Available in Gold Cup, Rail Gun and Government versions, these authentic models are made exclusively under license by Carl Walther in Germany.

Standard specs on all models:

- .22 LR semi-auto
- CNC machined high-grade aluminium slide
- 5" (127mm) barrel
- 1 x 10-round magazine
- Made exclusively under license by Carl Walther in Germany

Gold Cup

- Target front sight and adjustable rear sight
- Skeletonized 3-hole trigger
- Extended beavertail grip safety
- Elongated hammer
- Blued finish with rubber wraparound grips
- Weight: 940g
